

Bluetools

Decoding the ocean's potential

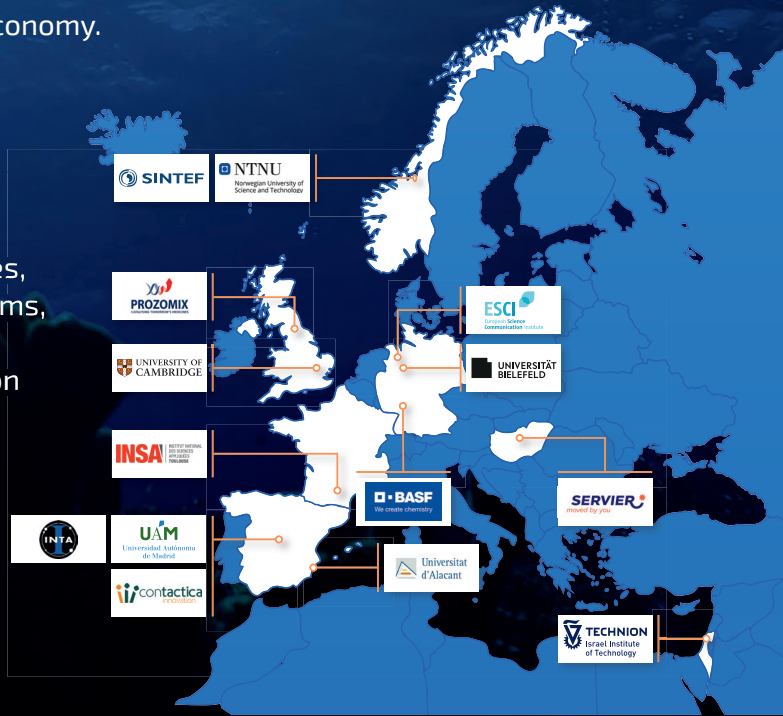

Developing innovative tools for exploring aquatic microbiomes sustainably

About Us

BLUETOOLS is an EU-funded project that aims to unlock the potential of marine microbiomes for a healthier ocean and a sustainable blue-economy.

Who we are

The Bluetools consortium brings together five top European companies, eight university teams, and one private training organisation to uncover the potential of marine microbiomes.

Bluetools

Our Goals

Provide a scientific foundation

Increase the participation of all actors

Demonstrate biodiscovery methodologies

Improve protection and sustainable use of marine bioresources

Raise awareness
